Commissioners of the Engineering Manpower Commission, November 1, 1991

Mr. Peter S. Adams, Consultant
E. I. duPont de Nemours & Co., Inc.

Dr. Eleanor Baum, Dean, School of Engineering
Cooper Union

• Dr. Fred Beaufait, Dean, College of Engineering
Wayne State University

Mr. John F. Betsch, Aircraft Systems Division
Grumman Corporation

Dr. Theodore A. Bickart, Dean of Engineering
Michigan State University

• Dr. William R. Boyle, Vice President/Division Chairman
Oak Ridge Associated Universities

Mr. Donald C. Brown, Consultant
(Retired, Sun Company/Oryx)

Mr. Kenneth R. Dede, Manager, Personnel Relations/Research
Eastman Kodak Company

• Mr. Edward J. Doyle, Consultant
(Retired, New Jersey Bell)

• Ms. Patricia Eng, Project Manager
Nuclear Regulatory Commission

Mr. Irwin S. Ginsburg, Human Resources Consultant
Amoco Corporation

Mr. Earl E. Gottsman, Vice President for Academic Affairs
Capitol College

• Mr. Dwight Gourneau, Senior Engineer
IBM Corporation

• Mr. Lewis G. Grimm, Principal Associate
Gorove/Slade Associates, Inc.

Mr. John Hannabach, Director, Corporate Relations/Placement
Georgia Institute of Technology

Mr. David A. Kearney, Manager, Graduate Employment
Westinghouse Electric Corporation

Mr. S. Joseph Kowalski, Consultant
Kowalski & Associate, Inc.

Dr. William K. LeBold, Director, Educational Research
Purdue University

• Dr. Charles S. Lessard, Associate Professor, Bioengineering
Texas A&M University

• Mr. Daniel J. McGinley, Director of Curricula & Accreditation
American Society of Civil Engineers

Miss Barbara A. Montague, Consultant
E. I. duPont de Nemours & Co.

• Ms. Patricia Patterson, Manager, Mfg., Surveillance Systems Div.
Westinghouse Electric Corporation

Dr. David R. Reyes-Guerra, Executive Director
Accreditation Board for Engineering & Technology

• Mr. Michael B. Rubin, Reactor Systems Engineer
Nuclear Regulatory Commission

Mr. Robert Rusek, Division Manager, Compensation
AT&T/Corporate

Dr. William M. Sangster, Director of International Programs
Georgia Institute of Technology

Mr. Fred O. Schulz, Jr., Recruiting Head, R & D
Procter & Gamble Company

Mr. H. Fred Shultz, Manager, Training & Employment
Exxon Research & Engineering

• Mr. Glen J. Snyder, Consultant, SM/MS Inc.
(Retired, Babcock & Wilcox Company)

Mr John F. Spencer, Manager, Engineering Management Services
Port Authority of New York & New Jersey

• Mr. James Donald Strong, Consultant
(Retired, U.S. Army/NSPE)

• Dr. Anthony L. Tilmans, Consultant

Mr. Stephen B. Tucker, Program Manager, Recruiting
General Electric Corporation

Dr. John F. Van Domelen, President
Wentworth Institute of Technology

Dr. Glen Vanden Berg, Agricultural Project Coordinator
Beltsville Agricultural Research Center, USDA

Mr. Ernie Von Heimburg, Manager, Corporate University Relations
Honeywell, Inc.

Dr. M. Lucius Walker, Jr., Dean of Engineering
Howard University

Mr. James E. Winget, Jr., Chief Production Engineer
Mobil Oil Corporation

Mr. Alan D. Wolfson, Director, Executive Resources
IBM Corporation

• Represents AAES member society

SUSTAINING, CONTRIBUTING AND ACADEMIC ASSOCIATES:

(Additional institutions are expected to be added to this list throughout the year.)

Patron Sustaining Associates:
- General Electric Foundation
- National Action Council for Minorities in Engineering

Senior Sustaining Associates:
- Amoco Foundation

Sustaining Associates:
- American Institute of Chemical Engineers
- AT&T
- The Boeing Company
- Chevron Corporation

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

The American Association of Engineering Societies (AAES) is a multidisciplinary organization dedicated to advancing the knowledge, understanding and practice of engineering in the public interest. Its members represent the mainstream of U.S. engineering--over half a million engineers in industry, government, and education.

Through its councils, commissions and committees, AAES addresses questions relating to the engineering profession; assesses public policy issues affecting engineering, technological innovation and national goals; conducts surveys of engineering personnel; represents the U.S. engineering community internationally in such bodies as the World Federation of Engineering Organizations and the Pan American Union of Engineering Associations; undertakes special projects such as national inventors' workshops and major studies of the utilization of American engineers; issues statistical studies of the engineering workforce, present and future; and publishes reference works such as *Who's Who in Engineering* and the *Thesaurus of Engineering and Scientific Terms.*

AAES also conducts forums for leaders in engineering, industry, government and education for the discussion of issues affecting engineering and the public interest. These include annual leadership conferences, workshops on technology forecasting and assessment, public policy roundtables, and engineering executive forums.

1991 Officers

Albert A. Grant, Chairman, Board of Governors
Carleton A. Bayless, Chairman-Elect
Lawrence P. Grayson, Past Chairman
Ernest Daman, Secretary/Treasurer
Mitchell H. Bradley, Executive Director

ENGINEERING MANPOWER COMMISSION

The Engineering Manpower Commission (EMC) has been a source of objective, timely data relating to the supply and demand for technological personnel since its organization in 1950. As an AAES Commission, EMC is composed of volunteers from professional engineering societies, academia, government, and industry, supported by a professional staff headed by AAES' Director of Manpower Studies.

EMC conducts annual surveys of industry and schools of engineering, monitors trends in the supply of and demand for engineers, and produces annual reports on engineering enrollments, degrees, and salaries. In addition to its statistical studies, EMC also produces the *Engineering Manpower Bulletin,* which assesses trends in the engineering workforce including participation in the profession by women and ethnic minorities.

1991 Officers

Donald C. Brown, Chair
Dr. Fred Beaufait, Vice Chair and Chair, Education Committee
Dr. William M. Sangster, Vice Chair
Dr. Theodore A. Bickart, Chair, Degrees Committee

AAES Staff

Director, Manpower Studies: R. A. Ellis
Director of Publications: Gordon Davis
Education Survey Manager: Diane Shinberg

The Engineering Manpower Commission wishes to express its grateful appreciation for the cooperation of the hundreds of organizations that provided the data on which this report is based.

TABLE OF CONTENTS

INTRODUCTION i

SUMMARY DATA FOR ALL GRADUATES vii

PART I: by School: Data for Schools, Curricula, and Degree Levels 1
ENGINEERING DEGREES 3
Bachelor Degrees in Engineering, 1990-1991, by School, State, and Curriculum: All Students 5
Bachelor Degrees in Engineering, 1990-1991, by School, State, Sex, and Population Groups 12
Master's & P.E. Degrees in Engineering, 1990-1991, by School, State, and Curriculum: All Students 19
Master's & P.E. Degrees in Engineering, 1990-1991, by School, State, Sex, and Population Groups 25
Doctorate Degrees in Engineering, 1990-1991, by School, State, and Curriculum: All Students 31
Doctorate Degrees in Engineering, 1990-1991, by School, State, Sex, and Population Groups 36
ENGINEERING TECHNOLOGY DEGREES 41
Associate Degrees in Technology, 1990-1991, by School, State, and Curriculum: All Students 43
Associate Degrees in Technology, 1990-1991, by School, State, Sex, and Population Groups 48
Bachelor Degrees in Technology, 1990-1991, by School, State, and Curriculum: All Students 53
Bachelor Degrees in Technology, 1990-1991, by School, State, Sex, and Population Groups 57
Master's Degrees in Technology, 1990-1991, by School, State, and Curriculum: All Students 61
Master's Degrees in Technology, 1990-1991, by School, State, Sex, and Population Groups 62

PART II: by Population Groups: Data for Women, Minorities, and Foreign Nationals 63
WOMEN 65
Bachelor Degrees in Engineering, 1990-1991, by School and State: Women 67
Master's and P.E. Degrees in Engineering, 1990-1991, by School and State: Women 74
Doctorate Degrees in Engineering, 1990-1991, by School and State: Women 80
Associate Degrees in Engineering Technology, 1990-1991, by School and State: Women 85
Bachelor Degrees in Engineering Technology, 1990-1991, by School and State: Women 90
Master's Degrees in Engineering Technology, 1990-1991, by School and State: Women 94
AFRICAN AMERICANS 95
Bachelor Degrees in Engineering, 1990-1991, by School and State: African Americans 97
Master's and P.E. Degrees in Engineering, 1990-1991, by School and State: African Americans 104
Doctorate Degrees in Engineering, 1990-1991, by School and State: African Americans 110
Associate Degrees in Engineering Technology, 1990-1991, by School and State: African Americans 115
Bachelor Degrees in Engineering Technology, 1990-1991, by School and State: African Americans 120
Master's Degrees in Engineering Technology, 1990-1991, by School and State: African Americans 124
HISPANICS 125
Bachelor Degrees in Engineering, 1990-1991, by School and State: Hispanics 127
Master's and P.E. Degrees in Engineering, 1990-1991, by School and State: Hispanics 134
Doctorate Degrees in Engineering, 1990-1991, by School and State: Hispanics 140
Associate Degrees in Engineering Technology, 1990-1991, by School and State: Hispanics 145
Bachelor Degrees in Engineering Technology, 1990-1991, by School and State: Hispanics 150
Master's Degrees in Engineering Technology, 1990-1991, by School and State: Hispanics 154
NATIVE AMERICANS 155
Bachelor Degrees in Engineering, 1990-1991, by School and State: Native Americans 157
Master's and P.E. Degrees in Engineering, 1990-1991, by School and State: Native Americans 164
Doctorate Degrees in Engineering, 1990-1991, by School and State: Native Americans 170
Associate Degrees in Engineering Technology, 1990-1991, by School and State: Native Americans 175
Bachelor Degrees in Engineering Technology, 1990-1991, by School and State: Native Americans 180
Master's Degrees in Engineering Technology, 1990-1991, by School and State: Native Americans 184
ASIAN AMERICANS 185
Bachelor Degrees in Engineering, 1990-1991, by School and State: Asian Americans 187
Master's and P.E. Degrees in Engineering, 1990-1991, by School and State: Asian Americans 194
Doctorate Degrees in Engineering, 1990-1991, by School and State: Asian Americans 200
Associate Degrees in Engineering Technology, 1990-1991, by School and State: Asian Americans 205
Bachelor Degrees in Engineering Technology, 1990-1991, by School and State: Asian Americans 210
Master's Degrees in Engineering Technology, 1990-1991, by School and State: Asian Americans 214
FOREIGN NATIONALS 215
Bachelor Degrees in Engineering, 1990-1991, by School and State: Foreign Nationals 217
Master's and P.E. Degrees in Engineering, 1990-1991, by School and State: Foreign Nationals 224
Doctorate Degrees in Engineering, 1990-1991, by School and State: Foreign Nationals 230
Associate Degrees in Engineering Technology, 1990-1991, by School and State: Foreign Nationals 235
Bachelor Degrees in Engineering Technology, 1990-1991, by School and State: Foreign Nationals 240
Master's Degrees in Engineering Technology, 1990-1991, by School and State: Foreign Nationals 244

PART III: by Curricula: Data for Specific Programs of Study 245
ENGINEERING CURRICULA BY SCHOOL 247
Engineering Curricula by State and School, 1990-1991 249
ENGINEERING TECHNOLOGY CURRICULA BY SCHOOL 285
Engineering Technology Curricula by State and School, 1990-1991 287
ENGINEERING AND ENGINEERING TECHNOLOGY CURRICULA BY DEGREE GROUPS 307
Engineering and Engineering Technology Curricula by Degree Groups, 1990-1991 309

APPENDIX: Illustrative Data Collection Form 325

INTRODUCTION

For over twenty years, the Engineering Manpower Commission (EMC) has conducted annual surveys of enrollments and degrees in engineering programs. This report provides statistics on degrees awarded in the United States in engineering and engineering technology during the 1990-1991 academic year. Degree production is stated for particular disciplines (such as civil engineering, electrical engineering technology, etc.), and for differing academic levels (B.S., M.S., etc.). Detailed information is provided for specific institutions; subtotals for each State are included. The report also identifies the numbers of awards to women, members of minority groups, and foreign students, as well as gender breakdowns for population groups at the institution level (e.g., Hispanic women or foreign national men).

In engineering, the study covers 333 institutions, including all of those with curricula approved by the Accreditation Board for Engineering and Technology (ABET). Some of these schools have newly initiated engineering programs, and have not been included in previous degree reports from EMC. Except for a few schools that were not listed because they did not produce graduates in 1991, this report provides a comprehensive enumeration of engineering programs available in the United States today.

In engineering technology, the 1991 degree survey includes data from 308 schools. All schools with any ABET-approved technology curricula are covered, as well as a number of others. No coverage is provided of awards at the certificate level or of pre-engineering degrees.

This report is now issued in a single volume. It covers all the data that in the past was contained in three volumes, plus a newly added special *Summary Data* section that aggregates the overall numbers of degrees, by curriculum, awarded to women, members of four minority groups (African Americans, Hispanic Americans, Native Americans, and Asian Americans), and foreign nationals. This summary section also includes data, such as time series tables, not previously provided in these reports.

The report is organized into three parts:

Part I—By School presents summaries of degree awards, grouped by type. For each degree level, data are organized by institution, in alphabetical order by State, with details for each major type of curriculum along with subtotals for each State and for the nation. Descriptive data for the schools include codes for institutional types (public, private, etc.) and accreditation statuses, as well as special response codes that flag any unusual characteristics of the data for the school. Separate tabulations are included for bachelor, master's and professional engineering (P.E.), and doctorate degrees, and for associate, bachelor, and master's degrees in engineering technology. Details on the sex of minority and foreign national graduates are provided by State and institution following these curricula tabulations. Some schools were unable to provide gender breakdown data for minorities and/or foreign nationals; these schools are flagged accordingly.

Part II—By Population Groups provides the same detailed, school-specific curriculum data that is presented in Part I for each of the six population groups listed above: women, the four minority categories, and foreign nationals. For example, this section allows a reader to identify specific schools in any particular geographic region that have awarded significant numbers of degrees in some particular field of engineering to women, Hispanic Americans, foreign nationals, etc.

Part III—By Curricula provides different tabulations of the degree data. Each major discipline is listed with a line of data for each specific program offering. Often schools have more than one program in a single broad engineering or engineering technology discipline; when this is the case, institutions have multiple listings in the Part III report. Distinctions such as separate accredited and unaccredited offerings, or between programs leading to differing degrees (such as the difference between master of science and master of engineering diplomas) are preserved, and the specific titles attached to each degree are displayed. The latter step permits examination of the data to find graduates with specialized engineering skills not otherwise identified in the more general tabulations of over 20 broad curriculum categories. For example, within the general group of civil engineering graduates it is possible to locate specific programs in surveying engineering. For each program, both school-level descriptive codes and program-level ABET accreditation statuses are displayed. Numbers of degrees are listed separately for each major level (B.S., M.S., etc.), and overall totals are displayed along with aggregate totals for awards to women, minorities and foreigners. A final tabulation summarizes national degree production for every program title used in the survey.

EMC's degree data are available in the form of machine-readable files on IBM-standard 5 1/4 inch floppy disks, especially configured for use with Lotus Development Corporation's popular 1-2-3 spreadsheet software. All details provided in Parts I and II of our printed reports are captured in these files; however, the machine-readable data do not include the program-by-program information provided in Part III. The 1-2-3 source files have been adjusted so that all

For the first time in many years, EMC has expanded the number of broad disciplinary categories tracked in its educational surveys. Programs formerly combined into a broad "Industrial Engineering" group are now, in selected tables, broken down further as follows:

- Engineering Management
- Manufacturing Engineering
- All Other Industrial Engineering

This change is similarly applicable to programs formerly categorized as "Industrial Technology," now broken down into the latter two categories listed above.

These details are provided in summary tables for the current survey (but not in the time series); in the program specific data in Part III (but not in the general school-by-school tables in Parts I and II); and in all applicable machine-readable data files.

engineering (or all technology) schools are listed in every data file, so that (for example) data for M.S. and Ph.D degrees can be added to a spreadsheet for B.S. degrees, providing listings for all degrees in engineering, regardless of level, in the nation. No provision is made to combine engineering and engineering technology data in this fashion, however. These data files are a powerful and convenient way to use personal computers to manipulate the 1991 degree survey results, generating new tabulations that are not presented by EMC in its printed reports. A similar product is available for EMC's survey of engineering and technology enrollments.

Any questions regarding the course content or other details of specific engineering or engineering technology programs should be directed to the participating schools. Other inquiries about EMC's educational surveys are welcome. Contact R. A. Ellis, Director of Manpower Studies, American Association of Engineering Societies (see the inside back cover for address information). For ordering information and prices for either printed reports or machine-readable data disks, see also the inside back cover.

EMC'S NEW DEGREE ERROR CHECKING SYSTEM

The 1991 degree survey utilized a new data entry system which enhances control over every point of production. This system automatically performs checks on the validitiy of data as it is entered. The new software insures against both duplicate and missing program entries. Individual lines of program data are examined to insure that details for women, and for minorities and foreign nationals, do not exceed degree totals. Problems that are due to errors in data entry are easily rectified; other anomolies require contact with each school to determine correct data. While entered data is awaiting corrections, it is flagged and stored in a separate provisional database, to be retrieved once corrected data is received.

As it is entered, each line of data is compared against similar information submitted to EMC the previous year. Thus, we can automatically track large fluctuations in the degree statistics for the individual programs for which we have previous data. If the updated school information, accreditation, or curricula group assignments are not recognized by the system, the system calls for appropriate actions by the survey staff. Response codes, used for schools that submit incomplete data, have been automated as well, to provide more specific descriptions of missing coverage. The new system recognizes whether the selected response code is valid for the program to which it is assigned.

EMC's staff formerly kept elaborate paper logs to track school responses, address and contact information updates, phone calls, and data entry. All these tasks have been automated, allowing for tighter control over all levels of interaction with the schools.

The new data system has allowed EMC to produce the most thoroughly checked degree survey in its history. Checks that formerly were done by hand, or after data entry towards the end of the survey, are now automated and ongoing. This year, the majority of our old-style database checks proved to be superfluous.

Overwhelmingly, the largest burden of degree survey production is now the need to contact the schools for data corrections, missing data, and lack of response. After exhausting all possible means of getting complete and correct information from the schools, EMC resorts to implementing response codes, reasonable estimates, and substituting previous data.

Summary tables formerly included in this *Introduction* have been moved to a new *Summary Data* section immediately following this part of the report.

As in earlier degree surveys, responses from previous years were used when schools were unable to provide current data. No attempt was made to substitute data on technology programs that were not accredited by ABET. EMC had traditionally limited substitutions to the previous year only; in 1987 this rule was modified to permit older substitutions of data where available, rather than lose a school altogether or rely on less valid forms of estimation. In 1991, 98 percent of the engineering schools contacted by EMC for degree data were able to meet our very demanding deadline, and no substitutions of data more than one year old were needed in order to add information on all of the remaining institutions. A complete accounting of the substituted cases follows.

NEW SCHOOLS AND NAME CHANGES IN 1991

Two engineering institutions are listed for the first time: Saginaw Valley State University in University Center, Michigan, and the University of West Florida in Pensacola. Newly listed schools with ABET-accredited engineering technology programs are Burlington County College in Pemberton, New Jersey, and Northeast State Technical Community College in Blountville, Tennessee.

One school not previously listed in these reports, Dordt College in Sioux Center, Iowa, awarded eight bachelor's degrees in engineering. Their survey response was received as this report went to press, and, thus, these degrees are *not* included in the tabulated data.

A few schools continue to operate but do not appear in this year's listings because they did not award 1991 degrees. The engineering program at University of California at Riverside is relatively new and has yet to produce degrees. The engineering program at Loras College in Iowa is small and awarded no degrees in 1991. Missouri Western State College, the Devry Institute in Woodbridge, New Jersey, Oklahoma State University, and the University of New Haven in Connecticut awarded no associate degrees in engineering technology in 1991. Clemson University in South Carolina and Spring Garden College in Pennsylvania no longer offer bachelor degrees in engineering technology.

Users should note that a number of engineering schools which reported only bachelor's degrees in the past have now added graduate degrees to the awards listed in this report.

A number of name changes were reported. Southeastern Massachusetts University became the University of Massachusetts at Dartmouth; Savannah Area Vocational-Technical School became Savannah Technical Institute; Weber State College became Weber State University; Kansas College of Technology became Kansas State University at Salina; the College of Saint Thomas became the University of Saint Thomas.

Purdue University at Fort Wayne requested that EMC recognize its joint affiliation with Indiana University. We did not change its listing, however, because the Indianapolis campus, which has a similar affiliation, did not desire a change in their listing. We feel that such an exception for one campus may lead to confusion among some of our readers, especially when comparing current degree listings to those of past years.

At the request of the institution, degrees previously reported for the Space Institute at University of Tennessee are now reported with degrees at the University of Tennessee at Knoxville. Note: in 1990, EMC mistakenly received and used duplicate reports for Bachelor degrees in engineering technology for the University of Nebraska's Lincoln and Omaha campuses. All these degrees are awarded at Omaha. There is no duplication in 1991.

MISSING AND SUBSTITUTED DATA

In a few cases, 1991 degree report was received by EMC. However, 1990 reports were available, and were substituted for the missing data. When these schools appear in tabulations, they are flagged with a special response code "0." In one case substitutions were needed for only portions of a school's data (for example, information on B.S. awards may have been submitted, but data on graduate degrees may have been left out, leading to substitution of the graduate degrees only). In such cases, the flags appear only when needed. The substituted schools are:

Engineering Schools: substituted 1990 responses for six institutions account for 475 B.S. degrees, 316 M.S. degrees, and 4 Ph.D. awards in the 1991 tabulations:
University of South Alabama (master's level only)
United States Naval Postgraduate School (California)
Monmouth College (New Jersey)
United States Military Academy (New York)
Widener University (Pennsylvania)
University of Texas at Dallas

Engineering Technology Schools: 1990 responses for eleven schools accounted for 363 associate degrees and 177 BSET degrees in the 1990 tabulations. Only technology schools with ABET-approved curricula were substituted:
Glendale Community College (Arizona)
Idaho State University
Tri-State University (Indiana)
Murray State University (Kentucky)
Northwestern Mississippi Junior College
Hudson County Community College (New Jersey)
Institute of Technology at the State University of New York
Technical Career Institute (New York)
Catawba Valley Technical College (North Carolina)
Utah Valley Community College
West Virginia State College

MISSING DETAILS

Several schools were unable to provide data for one or more of the several special population groups—women, minorities, and foreign nationals—tracked by EMC. No estimates were made for these omissions. Appropriate response codes flag all of these cases in the tabulations. Some other schools provided partial responses which EMC staff pro-rated to allow the entry of a full data set; such cases are not listed here, but are flagged in the tables with appropriate response codes.

Missing details frequently apply to only some of the programs reported by a school. In such cases, response codes appear in the tables only when they are applicable. In general, if degree production for a particular type of student is zero and no response code is attached to the line, EMC has judged the zero result to be an accurate one. On the other hand, if no degree production is reported for a group but an applicable response code appears with the listing, the reader should assume that such degrees may have been awarded but that EMC has no way to estimate the number of these degrees. A number of schools could not provide breakdowns by gender for ethnic and foreign national groups.

Some substituted cases also had missing details, notably the Glendale Community College in Arizona. In such cases, we now provide explicit codes for both conditions. Multiple response codes also are used in the tables for gender and population groups. Schools with missing details are:

Engineering Schools:
California State Polytechnic University at Pomona: details on foreign nationals are missing.
California State University at Fresno: details on foreign nationals and gender breakdowns are missing.
California State University at Fullerton: no gender breakdowns.
California State University at Northridge: details on Asian Americans are missing, and no gender breakdowns.
San Francisco State University (California): gender breakdowns are missing.
University of California at Berkeley: details on foreign nationals are missing for some undergraduate programs.
Colorado State University: gender breakdowns are missing.
Hartford Graduate Center (Connecticut): details on minorites are missing.
University of Bridgeport (Connecticut): no details.
University of District of Columbia: no gender breakdowns.
Florida A&M University/Florida State University College of Engineering: details on foreign nationals are missing.
University of South Florida: no details on foreign nationals.
Institute of Paper Science & Technology (Georgia) (Master's only): gender breakdowns are missing.
University of Illinois at Chicago (undergraduate only): details on foreign nationals and Asian Americans are missing; (graduate only): all details are missing.
University of Kentucky (undergraduate only): details on foreign nationals are missing; (graduate only) no details.
University of Maine at Orono: no details on minorities and foreign nationals.
Tufts University (Massachusetts) (graduate only): gender breakdowns are missing.
University of Lowell (Massachusetts) (master's only): gender breakdowns are missing.
University of Massachusetts at Dartmouth: gender breakdowns are missing.
Montana State University: no details on minorities and foreign nationals.
University of Nevada School of Mines (undergraduate only): no details on minorities and foreign nationals by program.
New York Institute of Technology: no gender breakdowns.
College of Environmental Science at the State University of New York (graduate only): no gender breakdowns.

Ohio Northern University: gender breakdowns are mssing.
University of Toledo (Ohio): no gender breakdowns.
Oregon State University (undergraduate only): no details on minorities and foreign nationals; (graduate only): all details are missing.
Portland State University (Oregon): no gender breakdowns.
Carnegie Mellon University (Pennsylvania) (undergraduate only): gender breakdowns are missing.
Memphis State University (Tennessee) (undergraduate only): gender breakdowns are missing.
Lamar University (Texas) (bachelor's and master's only): gender breakdowns are missing.
Prairie View A&M University (Texas): no gender breakdowns.
University of Utah: one or two persons of unknown sex were counted as men
Seattle University (Washington): no details on minorities and foreign nationals.
Marquette University (Wisconsin) (master's only): gender breakdowns are missing.

Engineering Technology Schools:

California State Polytechnic University at Pomona: no details on foreign nationals.
Central Connecticut State University: no details on minorities and foreign nationals.
University of the District of Columbia: no gender breakdowns.
University of South Florida: no details on foreign nationals.
Fort Valley State College (Georgia): no gender breakdowns.
Western Iowa Technical College: no gender breakdowns.
Pittsburg State University (Kansas): no gender breakdowns.
Eastern Maine Vocational Technical Institute: no details.
University of Maine at Orono: no details on minorities and foreign nationals.
Saint Louis Community College at Forest Park (Missouri): gender breakdowns are missing.
Montana State University: no details on minorities and foreign nationals.
University of Nebraska at Omaha: no gender breakdowns.
Middlesex County College (New Jersey): gender breakdowns are missing.
Bronx Community College (New York): no details on minorities and foreign nationals.
Hudson Valley Community College (New York): no details on miorities and foreign nationals.
New York City Technical College: details on minorities and foreign nationals, and gender breakdowns are missing.
Rochester Institute of Technology (New York): gender breakdowns are missing.
State University of New York, College at Buffalo: no details.
Westchester Community College (New York): gender breakdowns are missing.
Davidson County Community College (North Carolina): gender breakdowns are missing.
Hocking Technical College (Ohio): all details are missing.
University of Toledo (Ohio): no gender breakdowns.
Roger Williams College (Rhode Island): no details on minorities and foreign nationals by program.
Tri-County Technical College (South Carolina): no details.
Memphis State University (Tennessee): no gender breakdowns.
Tri-Cities State Technical College (Tennessee): gender breakdowns are missing.
Lamar University (Texas): gender breakdowns are missing.
University of Houston, College of Technology: no details.
Madison Area Technical College (Wisconsin): gender breakdowns are missing.

EXPLANATION OF SYMBOLS AND ABBREVIATIONS

The "T-A-R" Codes:

EMC adopted a three-part alphabetical coding system in 1986 to denote school types, institutional accreditation, and any special facts relating to the school's data. These codes are as follows:

T: Type of School:

"S" means state or other public control, including municipally-sponsored schools, but excluding federally-sponsored service academies.

"F" denotes the federal institutions.

"N" means non-sectarian, non-profit private institutions.

"R" denotes religiously affiliated institutions.

"P" denotes proprietary schools.

"C" denotes combined public and private sponsorship, e.g. Cornell University.

A: Accreditation:

"E" means at least one engineering program is accredited by ABET.

"T" means at least one technology program is accredited by ABET.

"B" means that the school has ABET-accredited courses in both engineering and technology.

"R" means that the school does not have ABET-accredited courses, but is approved at the institutional level by a recognized regional accreditation agency such as the Southern Association of Colleges and Schools.

"X" means that none of the preceeding codes apply (in general, such schools are candidates for regional accreditation).

An "N" code for accreditation by NATTS, the National Association of Trade and Technical Schools, is allowed but has not been used for several years.

R: Response: These codes appear only when applicable. Note that the tables of gender breakdowns for population groups utilizes a two-part response code in order to most accurately describe the missing data.

"0" denotes substituted data from the 1990 degree survey.

"A" means all details on population subgroups were missing.

"C" means details were missing for foreign nationals.

"D" means details were missing for minority groups and foreign nationals.

"E" means details were missing for minorities.

"F" means details were missing for Asian Americans and foreign nationals.

"G" mean details were missing for Asian Americans.

"P" means data were prorated in some fashion by EMC's staff, in order to generate a complete response.

The following codes only appear on tables in Part I where details on gender breakdowns for population groups are provided by degree level for each school:

"W" means that details were not provided at the level of programs.

"X" means population group totals by gender were missing. This code is used alone or modified by other response codes.

"Y" means that no details were provided for Asian Americans and that gender breakdowns were missing for other minorities and foreign nationals.

"Z" means that one or two persons of unknown sex were listed as men. This code only applies to the University of Utah.

Note that the response codes are program-specific: they may appear in one listing for a school but not in another, if one program involved substitutions, missing details, or pro-rating while the other did not.

Examples: TAR code of "SB": this is a publicly supported school with ABET-approved programs in both engineering and engineering technology. TAR code of "RR0": this is a religiously-affiliated school, regionally accredited, treated with substituted data from a 1990 response. TAR code of "NEAX": this is private, non-sectarian school with ABET-accredited engineering programs and with no gender breakdowns for any group.

Program-Level Accreditation Codes: These are used only in the Part III volume on curriculum details:

"A" denotes ABET accreditation at the associate degree level.

"B" denotes ABET accreditation for the program at the bachelor's level.

"M" denotes ABET accreditation at the master's level (used only rarely for programs leading to a master's as a first professional degree; in general, ABET does not accredit graduate programs).

"N" denotes programs with no ABET accreditation. In general, where program titles match degree levels, higher-level offerings will be flagged with the corresponding lower-level code if such an ABET accreditation exists. However, in many situations this rule cannot be unambiguously applied. For example, EMC will tag a graduate program in mechanical engineering with a "B" ABET accreditation code if the corresponding undergraduate course is present, but will not apply the code to a graduate program in engineering mechanics. Similar cross-references may be made for technology programs.

Discipline Category Abbreviations:

ACN = Air Conditioning/Heating/Refrigeration (technology only)
AER = Aerospace and related
AGR = Agricultural (engineering only)
ARC = Architectural
AUT = Automotive (technology only)
BIO = Bioengineering (engineering only)
CER = Ceramics (engineering only)
CHE = Chemical
CVL = Civil and Construction (engineering); Civil only (technology)
CON = Construction (technology only)
CMP = Computer
ELC = Electrical/Electronic (engineering); Electrical only (technology)
ELM = Electromechanical (technology only)
ELX = Electronic (technology only)
ENS = Engineering Science
ENV = Environmental (engineering only)
GNL = General Engineering
IMM = Industrial/Manufacturing/Engineering Mgmt.
    IEM = Engineering Management (engineering only)
    IMF = Manufacturing
    IND = All Other Industrial
MAR = Marine
MTL = Materials/Metallurgical (engineering); Materials only (technology)
MEC = Mechanical
MGN = Mining/Mineral/Geological (engineering); Mining/Metallurgical/Welding (technology)
NUC = Nuclear
PET = Petroleum/Natural Gas (engineering only)
SYS = Systems (engineering only)
OTH = Others (including Agricultural, Biomedical, Environmental and Petroleum Technology)

SUMMARY DATA

In addition to using elaborate automated quality control systems and the shift to a single-volume format for printed reports, this edition of EMC's annual degree survey also introduces a new section for the presentation of summary data. Special tabulations which were scattered throughout previous reports and separate EMC degree bulletins have now been consolidated, along with new material, to provide a comprehensive picture of current outcomes and long-term trends in the production of engineering and engineering technology degrees.

CONTENTS OF THE SUMMARY DATA SECTION

Eleven summary tables are provided. Following explanatory comments on each of them, we provide a brief assessment of the degree production picture as it appears as this is written, in the final quarter of 1991.

Table 1: All Degrees in Engineering, 1990-1991, by Level of Degree, Type of Student, and Discipline. A similar tabulation appeared in special summary data sections for the 1990 degree survey, and comparable material was scattered throughout earlier editions of our printed reports. The data provide a concise summation of B.S., M.S., and Ph.D. awards during the 1990-1991 academic year for 23 engineering disciplines, including the number of degrees given to women, minorities, and foreign nationals. These breakdowns include details for awards in engineering management and manufacturing engineering as well as other kinds of degrees traditionally classified by EMC under the broad heading of "industrial engineering." Those details are *not* included in the school-by-school tables provided in Parts I and II of this report (however, they are available on a school-by-school basis in the somewhat more flexible format provided by EMC's machine-readable data files).

Table 2: Men and Women Engineering Graduates in Major Population Categories. A similar tabulation appeared in the introduction to the 1990 degree report, which was the first EMC survey to report on *combinations* of gender and population group (such as Hispanic women). The table provides gender breakdowns for B.S., M.S., and Ph.D. engineering degree awards among each of the ethnic and nationality populations tracked by the Commission. The table also provides a complete accounting for awards where the gender of the recipients was unknown (because a few schools were unable to provide these details).

Tables 3, 4, and 5: Bachelor's, Master's and P.E., and Doctoral Degrees in Engineering, by Curriculum, 1981-1991. These time series tables have not been provided in our previous printed reports (they have appeared in the Commission's *Engineering Manpower Bulletins,* which will now focus on a more condensed set of broad disciplinary groups). The tables contain complete data for engineering degree production in each of the major specialties during the last ten years. No attempt has been made to disaggregate prior-year data on industrial engineering awards into the three more detailed categories now used by EMC.

Table 6: Degrees in Engineering by Level and Type of Student, 1981-1991. A similar time series tabulation has appeared in the printed report introductions in recent years. This version provides added details for each ethnic population.

Tables 7-11: these tabulations provide statistics for engineering technology degrees that are comparable to the data on engineering awards described for Tables 1-6 above. The information in the main summary (Table 7) and in the gender-by-population report (Table 8) was also provided in the 1990 study. The remaining tabulations present time series data that have not been published by EMC in the past, because stable longitudinal statistics from EMC's surveys of engineering technology degrees have only been available from 1987 onwards. (In 1986, the Commission moved to achieve 100 percent coverage of all ABET-accredited technology schools, and certain critical improvements were adopted in 1987 in our handling of disciplinary assignments; Tables 9, 10, and 11 are now feasible because of those changes five years ago.) Only five technology tables are needed, compared to the six tabulations used for engineering, because only a small number of technology degrees are awarded at the highest (M.S.) level, eliminating the need for disciplinary breakdowns for this group (most of the M.S. degrees in engineering technology are classed by schools as either "general" or "other technology" awards).

CURRENT TRENDS

As in the past, extended commentary on directions in the generation of engineering degrees will be provided in EMC's *Engineering Manpower Bulletin* issue number 115 (December, 1991), "Engineering Degree Statistics and Trends, 1991." However, the broad picture can be summarized as follows:

The gradual decline in annual undergraduate degree production that has been reflected in these surveys since 1986 continued in 1991. The root cause of this decline is demographic; to date, the drop has conformed very closely to a parallel trend in the numbers of U.S. live births during the 1960s and 1970s. That is, simple "back-of-the-envelope" forecasts of the production of engineering bachelor's degrees, applying trends from falling birthrates 18 years previously to EMC's statistics for first-year enrollments and then projecting degrees as a constant function of those enrollments, have proved thus far to be quite accurate, with an average departure from actual figures for degree production of less than two percent.

The same exercise indicates that the long decline in first-year enrollments should now be leveling off, and that enrollments will begin to grow again during the mid-1990s. If relationships between past birthrates, present enrollments, and future degree production continue to remain stable, we should see further drops in B.S. degree production during the next few years, followed by a relatively flat period before the numbers of awards begin to rise again in 1998 or

1999. Of course, this "if" contains many heroic assumptions, especially the notion that interest in engineering will not be influenced by current educational and economic events.

Within this broad trend, the participation of women and minorities in engineering has continued to increase, on a proportionate basis for women and on both a proportionate and an absolute basis for under-represented minorities. As always, the gains are not very large, but at least they are in the right direction.

Data for graduate degree production in engineering also conformed to the trends for other recent years. There were modest increases in the number of awards for both master's and doctoral degrees, and the foreign national share of U.S. engineering Ph.D's rose to over 50 percent of these awards (other sources reported similar findings some years ago, but those results were based on the number of degrees awarded to all foreign-born persons, not just those to students on temporary visas).

In engineering technology, there was a small decline in the number of associate degrees reported to EMC and a very small drop in the number of reported bachelor degrees.

Because of reports in the media that callups in the Fall of 1990 of ROTC units for the Gulf War were affecting graduation plans of college students, EMC included an item in its 1991 degree survey to see if those military manpower demands had significant effects on the production of engineering degrees. In general the effects were negligible. Twenty-nine schools sensed some impact on the production of bachelor's degrees, reducing output by a total of 82 graduates. Five schools reported a total drop of 14 M.S. degrees and one school estimated a loss of nine Ph.D's. Fifteen schools reported a total effect of 53 deferred associate's awards and seven schools estimated a total decline of 24 B.E.T. degrees. There were no reported effects on master's degrees in engineering technology.

---

* Note: student population categories are neither exaustive nor mutually exclusive, and will not sum to totals. In particular, women may be included in ethnic or foreign national categories; see separate tables for gender and population groups for details on this overlap. Foreign nationals are NOT counted in ethnic groups, which are for U.S. citizens and permanent residents. Awards in the columns labeled "IEM" (Industrial: Engineering Management), "IMF" (Industrial: Manufacturing Engineering), and "IND" (Industrial: All Others) are grouped together in a single "IMM" (Industrial, Management and Manufacturing) category elsewhere in the report.

Table 2:

MEN AND WOMEN ENGINEERING GRADUATES IN MAJOR POPULATION CATEGORIES

	All Graduates	African Americans	Hispanic Americans	Native Americans	Asian Americans	Foreign Nationals
All Bachelor's Degrees:	63986	2304	2663	146	6305	4540

---

* Note: student population categories are neither exaustive nor mutually exclusive, and will not sum to totals. In particular, women may be included in the ethnic or foreign national categories; see separate tables for gender and population groups for details on this overlap. Foreign nationals are NOT counted in ethnic groups, which are for U.S. citizens and permanent residents. Awards in the columns labeled "IMF" (Industrial: Manufacturing Engineering) and "IND" (Industrial: All Others) are grouped together in a single "IMM" (Industrial, Management and Manufacturing) category used elsewhere in this report.

Table 8

MEN AND WOMEN ENGINEERING TECHNOLOGY GRADUATES IN MAJOR POPULATION CATEGORIES

	All Graduates	African Americans	Hispanic Americans	Native Americans	Asian Americans	Foreign Nationals
All Associate's Degrees:	12276	581	290	42	387	209

APPENDIX
Illustrative Data Collection Form

(202) 296-2237 **ENGINEERING MANPOWER COMMISSION** (202) 296-2237

SURVEY OF DEGREES IN ENGINEERING AND ENGINEERING TECHNOLOGY AWARDED BETWEEN JULY 1, 1990 AND JUNE 30, 1991

DEADLINE FOR RETURNS: AUGUST 15, 1991
READ INSTRUCTIONS ON OTHER SIDE BEFORE COMPLETING SURVEY

School........... **Duke University**

Degree Level.. Bachelors Degrees in Engineering

For EMC use only	EMA DEGREE TITLE (Curriculum or Option):	ABET Status and Program Group:	Total Degrees Awarded, 7/1/90 to 6/30/91:	All Women:	U.S. Citizens or Permanent Residents: Blacks:	Hispanics:	Asians & Pacific:	American Indians:	Degrees to Foreign Nationals:
5405	Biomedical Engineering	B-BIO							
5406	Civil Engineering	B-CVL							
5407	Electrical Engineering	B-ELC							
5408	Mechanical Engineering	B-MEC							

	ENTER TOTALS							
5409	**All Men:**		☒					
5410	**All Women:**		☒					
	Total:							

ADDITIONAL QUESTIONS:

I. **Did the call up of reserve military personnel for the war in the Persian Gulf affect the number of engineering/technology degrees listed on this form for 1990/91? Yes No (circle one)**

If Yes, please estimate how many more of these degrees your school would have conferred if this conflict had not developed: _______ (enter number of degrees)

II. **EMC is contemplating collecting these data in machine-readable format. Is there an IBM PC standard personal computer in your office? Yes No (circle one)**

If Yes, circle the kind(s) of floppy disk drive that the computer has: 5 1/4" 3 1/2"

If necessary, correct and/or update mailing label and these data:

Mailing Label:

Earl H. Dowell
Dean
Duke University
School of Engineering
Durham North Carolina 27706-

School Type N: Private Non-Sectarian
School accreditation for engineering E: ABET Engineering
Dean of Engineering (or equivalent):
Name Earl H. Dowell
Phone (919) 684-2214
Person to contact concerning data on this form:
Name Connie Simmons
Title Coor of Student Affairs
Phone (919) 684-4233

[illegible]

REVISED INSTRUCTIONS

PLEASE READ BEFORE COMPLETING FORM

This is EMC's survey of all engineering and engineering technology degrees granted during the 1990-91 academic year. All engineering programs at your school should be reported, including any programs outside the school of engineering. The dean of engineering or equivalent should review all the data, resolving any questions as to the inclusion of particular programs and making estimates, if necessary, to fill in all incomplete items of information.

1 Check the mailing label and school information at the bottom of the form. Make changes as necessary. Be sure to check Dean and contact person information.

2 Check that correct forms for your school have been provided. (Separate forms are provided for engineering and for technology programs, and for each level of degree (associate, B.S., master's and professional engineering, etc.) within these categories.) Do NOT report degrees on inappropriate forms. If additional or different forms are needed, call us at (202) 296-2237.

3 For each line of pre-printed data, review degree titles, ABET status, and program group, in the second and third columns from the left. (ABET status reflects those in effect for the 1990-91 academic year; changes that are not effective until the 1991-92 academic year do NOT apply. See codes and abbreviations below.) Correct any errors. Cross out titles which no longer apply. Enter new titles on blank lines. Note the use of new broad program groups: IMF (Manufacturing), IMN (Management), and IND (Industrial). These program groups were formerly grouped together as INM (Industrial, Manufacturing and Engineering Management).

4 For each program you report, enter the **TOTAL** number of degrees awarded between **July 1, 1990 and June 30, 1991**, in the fourth column from the left.

5 In the next column, enter the number of these degrees that were awarded to **WOMEN** (this figure should include all women, regardless of race, ethnicity, or citizenship).

6 Skip to the last column on the right and enter the number of degrees awarded to **FOREIGN NATIONALS**—people in the U.S. on student (F-1) or exchange (J-1) visas.

7 Finally, enter the numbers of degrees awarded to **ethnic minorities who are also citizens or permanent residents (including foreign-born students on immigrant visas) of the U.S.** (Here, we are interested in four separate groups of peoples: African Americans/Blacks; Hispanic Americans/Latinos; Asian Americans, including Americans of Pacific, South Asian, and Middle Eastern origin; and Native Americans/American Indians, including Eskimos and Aleuts. Both men and women ethnic minorities should be counted in these groups. NO ONE should be counted in more than one ethnic minority group, and NO ONE should be counted as both an American ethnic minority and a foreign national.)

8 After entering data by program for all students, women, ethnic minorities and foreign nationals, enter **TOTALS** for each column across the bottom of the chart. Remember to enter **THREE LINES OF TOTALS** (for men, for women and for all degree recipients), including totals for ethnic minorities and foreign nationals by sex.

9 If there were no awards for a program in ANY of these categories, enter zeroes. **ITEMS LEFT BLANK WILL BE ASSUMED TO BE UNKNOWN UNLESS YOU INDICATE OTHERWISE.** A correctly completed form should have NO blank items, because items for which firm data is not available should be estimated by the deans or their appointed representatives.

The data on women, minorities, and foreign nationals are vital. We find that virtually all institutions do possess these statistics, although often they are maintained in such places as offices of minority affairs, institutional research, etc.

10 Answer the questions regarding the affects of the Persian Gulf War on your school's 1990-91 engineering and technology degree production.

11 Answer the questions regarding computer capabilities in your office.

12 **Review all entries. Double check your math.**

If you have ANY problems, call Diane Shinberg or Dick Ellis for help at (202) 296-2237. We must have your completed response by August 15, 1991. A business reply envelope is provided for your convenience.

We are obtaining nearly 100 percent cooperation from all U.S. engineering institutions and all technology schools with ABET-approved programs; we seek participation from other schools with engineering technology programs, as well. The data you provide is the authoritative source on the production of engineers in the United States, and is used by agencies of government, corporations, journalists, and researchers. Thanks for your help.

CODES AND ABBREVIATIONS

ABET STATUS: a program-level accreditation code. "A" denotes ABET accreditation for associate-level offerings; "B," for bachelor-level programs; "M" (rarely used), for masters-level programs; "N" stands for programs not approved by ABET. Codes reflect statuses for the 1990-91 academic year; do NOT change them to reflect changes that do not go into effect until 1991-92. Retrospective ABET accredition applications do NOT affect these formal dates. Graduate programs may be tagged with these codes if a school happens to have an ABET-approved program at the undergraduate level with an identical title.

"CLASSED WITH": broad disciplinary categories associated with each specific program. The classification used in past years, INM (Industrial, Manufacturing and Engineering Management), has been separated into three groups: IMF, IMN, and IND (see below). Codes in use for engineering programs include AER (Aerospace) AGR (Agricultural), ARC (Architectural), BIO (Biomedical), CER (Ceramic), CHE (Chemical), CVL (Civil & Construction), CMP (Computer), ELC (Electrical & Electronic), ENS (Engineering Science), ENV (Environmental), GNL (General Engineering), IMF (Manufacturing), IMN (Engineering Management), IND (Industrial), MAR (Marine & Naval Architecture), MTL (Materials & Metallurgy), MEC (Mechanical), MGN (Mining, Mineral, Geosciences), NUC (Nuclear), PET (Petroleum & Natural Gas), SYS (Systems), and OTH (Others). Codes for technology programs are somewhat different: ACN (Air Conditioning/Heating/Refrigeration), AER (Aeronautical), ARC (Architectural), AUT (Automotive), CHE (Chemical), CVL (Civil, Highway, Surveying), CMP (Computer), CON (Construction), DRF (Drafting & Design), ELC (Electrical), ELM (Electromechanical), ELX (Electronic), ENS (Engineering Science—used only for programs like Optical Technology, as EMC does NOT cover Pre-Engineering or equivalent curricula), GNL (General Engineering Technology), IMF (Manufacturing), IND (Industrial), MAR (Marine), MTL (Materials), MEC (Mechanical), MGN (Mining, Metallurgical, Welding), NUC (Nuclear), and OTH (Others, including Agricultural, Biomedical, Environmental, and Petroleum Technology programs).

BEST AVAILABLE COPY

CURRENT ENGINEERING MANPOWER COMMISSION PUBLICATIONS

NOTE: AAES has moved; see new address below. Custom runs of degree data are possible; call us for details. Our machine-readable products are provided on IBM-standard 5 1/4" floppy disks and include most, not but all, of the details available in EMC's printed reports. For more information, contact the AAES Manpower Studies Department.

ENGINEERS' SALARIES: SPECIAL INDUSTRY REPORT 1991 (published July, 1991)

A detailed breakdown of engineering salaries according to type of industry, geographic regions, company size, employee experience, highest degree held, and supervisory status. Tables and graphs depict salaries in medians, quartiles, deciles and means. member price: $169.00 non-member price: $287.50

PROFESSIONAL INCOME OF ENGINEERS 1991 (published July, 1991)

An abridged version of the Special Industry Report. Details for salary differences by highest degree held are not included; tabulations are added on engineering compensation in local, state and federal government agencies.
member price: $70.00 non-member price: $115.00

SALARIES OF ENGINEERS IN EDUCATION 1990 (published July, 1990)

Median, quartile, decile and mean salaries across 18 experience brackets for engineering faculty, by academic rank, contract types, and type of institution. member price: $70.00 non-member price: $112.00

ENGINEERING AND TECHNOLOGY ENROLLMENTS, FALL 1990 (published April, 1991)

A two-volume overview of the enrollment of students in engineering and engineering technology programs throughout the nation. Details by fields of study for specific schools and states, with added tabulations for women, minorities, and foreign nationals.

Two Volume Set: member price: $120.00 non-member price: $195.00
Separate volumes: Part I: Engineering Enrollments: member price: $70.00 non-member price: $115.00
Part II: Technology Enrollments: member price: $70.00 non-member price: $115.00
Machine-readable data files for Lotus 1-2-3: member price: $595.00 non-member price: $795.00

ENGINEERING AND TECHNOLOGY DEGREES, 1991 (published December, 1991)

A comprehensive report on recent engineering and engineering technology degrees that provides general statistics for schools and states on degrees in 40 engineering and technology disciplines, data for awards to women, minorities, and foreign nationals, and detailed data for specific curricula. member price: $140.00 non-member price: $230.00

Machine-readable data files for Lotus 1-2-3: member price: $595.00 non-member price: $795.00

ENGINEERING MANPOWER BULLETINS (eight issues throughout the calendar year)

Concise, timely information on trends in engineering salaries, enrollments, degrees, women and minorities in engineering, other topics.

Full subscription year: member price: $69.00 non-member price: $117.00
Single copies: member price: $9.00 non-member price: $14.00

TO ORDER:

Member prices are available to members of AAES member societies, employees of Industry Affiliates, and educational institutions or firms that have participated in the study to be purchased. Special prices are available to subsidiaries, employees of EMC Sustaining Associates, and employees of EMC Academic Associates. Please include society affiliation and membership number, Industry Affiliate, EMC Sustaining Associate, EMC Academic Associate, or survey participant information with your order, if applicable. First class postage (U.S. domestic) is included in the purchase price. Foreign orders add 10%; check must be payable in U.S. funds. Institutional purchase orders are accepted, as are Visa and MasterCard charges (include account number, expiration date and signature). Orders charged to Visa and MasterCard accounts may be placed directly by phone (U.S. only) at 1-800-658-8897. Mail orders should be directed to the AAES Publications Department, Suite 608, 1111 19th St. N.W., Washington, D.C. 20036-3690.
